### ENGLAND REFUSES TO STATE POSITION NOW

By Associated Press.  
London, England, October 21.—In his discussion of Mexican affairs with the American ambassador, Walter H. Page yesterday, Sir Edward Grey declined to bind the British government to any particular policy after the election in Mexico. In this re-

spect, therefore, the policy of the British government differs from that of the United States. The British attitude, according to Sir Edward Grey, is that matters should be left alone until after the election, and that future action should be based on the result.

### CURRENCY BILL UP AGAINST IT DECLARES MANN

By Associated Press.  
Washington, D. C., October 21.—Minority Leader Mann in a statement today, said that he is "willing to stake my legislative judgment for all time to come", that the Currency bill will not be reported as the President thinks it will be, "that it will not be passed in December." "Everybody except the President knows that the bill will not be passed now," he said.

### HUMPHREYS REPRIEVED

By Associated Press.  
Columbus, Ohio, October 21.—Leslie Humphreys, under sentence of death for murder, was reprieved today by Governor Cox, to give him an opportunity to appeal to the State Board of Pardons for commutation of sentence. He was to have been executed after midnight Wednesday. Humphreys was convicted of killing S. E. Kelley of West Virginia, several months ago. The alleged motive was robbery.

### Missed Dead Wife

By Associated Press.  
Cleveland, Ohio, October 21.—"I cannot live without my wife," said a note from beside the body of Edward Griffin, 50, who committed suicide today. Mrs. Griffin died six weeks ago, but six children survive.

### SUNDAY SCHOOLS OF PROTESTANTS SHOW BIG LOSSES

By Associated Press.  
New York, October 21.—A heated debate over the negro question in the South enlivened deliberations in the House of Deputies of the Protestant Episcopal church at today's session of the General convention. A majority report by the committee on Racial Episcopate, with recommendations against the proposal to establish separate churches, dioceses, clergy and bishops for Southern negroes was presented. A minority report advocating the separation of the races and the appointment of negro bishops to sit in the House of Bishops with powers equal to the whites was presented. New York City, October 21.—A loss of more than 16,000 pupils within the last three years from the Sunday school of the Protestant Episcopal church in the United States was reported to the General convention of the church today by the committee on the state of the church. The report asserted that the Sunday school throughout the country had on their rolls per day fewer than they had in 1910.

### SENATORS FLAY ABSENT MEMBERS

By Associated Press.  
Washington, D. C., October 21.—The demands that Senators either "quit, resign or go to work"; that absent members be brought back to Washington by the use of "any force that may be necessary," and that the miserable pretense of trying to do business without a quorum be ended, marked the opening of today's session of the Senate. Leaders on both sides joined in the demand that the "farce" of recent Senate proceedings be ended. Senator LaFollette began the attack on absentees, but it was taken up and endorsed by Senators Kern, Borah, Cummins and others. Figures given by Senator Kern showed that 31 Democrats were in Washington and 17 absent, and 19 Republicans in Washington and 26 absent.

### Mrs. Eaton Was Very Fearful

By Associated Press.  
Plymouth, Mass., October 21.—Conditions in the home of Rear Admiral J. G. Eaton before his death were described by witnesses today at the trial of Mrs. Eaton who is charged with the murder of her husband. Several witnesses told of hearing Mrs. Eaton express fear that Mr. Eaton would harm himself or other members of the family. She said he was of unsound mind. Witnesses said, Frank S. Alger, a newspaper man, said he did not think Eaton was insane, but said he noticed certain peculiarities of speech and manner, due perhaps to long service in the navy.

### STORM BRINGS HIGHEST TIDE IN 20 YEARS

By Associated Press.  
Baltimore, Md., Oct. 21, 1913.—The eastern shore of Maryland was visited by a severe storm of wind and rain last night. Practically every town along the water front suffered severe damage from high water, the tide being the highest experienced in 20 years. In many places water covered the streets from 12 inches to 5 feet in depth. A new \$20,000.00 concrete bridge near Easton was carried away during the storm and the Metropolitan Life Insurance Building in Easton was destroyed by fire.

### FRENCH START RECORD FLIGHT

By Associated Press.  
Issy Les Moulineaux, France, Oct. 21, 1913.—The longest aeroplane flight ever attempted was started here today by the French Aviator, Pierre Baneurt, accompanied by another Frenchman, Henry Roux. Cairo, Egypt, is their goal, a distance of 3348 miles. Supply stations have been established at distances of 250 miles.

### SNOWSTORM RAGES

By Associated Press.  
Chicago, Ill., October 21.—Snow fell heavily throughout the early hours of the forenoon. The storm is unprecedented according to the weather bureau officials.

### COLUMBUS' FIRST SNOW

By Associated Press.  
Columbus, Ohio, Oct. 21, 1913.—The first snow of the season fell throughout the central part of the state last night, the mercury dropping below the freezing point and a swift wind made the drop in temperature all the more noticeable.

### FEAR VESSEL AND 12 MEN ARE LOST

By Associated Press.  
Pensacola, Fla., Oct. 21, 1913.—In fear that the Highball, with 12 men aboard, was lost in Escambia Bay during the storm Sunday night, the Revenue Cutter Penrose was ordered out in search today. The launch left here Sunday for a trip that ordinarily would require but a few hours.

### BLINDED BY SNOW KILLED BY FREIGHT

By Associated Press.  
Chicago, Ill., October 21.—The first snow of the season fell here this morning, at times almost reaching the proportion of a blizzard. The mercury dropped below freezing point. Charles Blake, 40, switchman blinded by the snow was run down by a freight train and killed, and a number of persons were reported injured in accidents as a result of the snow.

### C. & O. Ry. Meeting

By Associated Press.

### Defense Sustained Watson Released

By Associated Press.  
Augusta, Ga., October 21.—The trial here of Thomas Watson, charged with sending obscene matter through mail, ended abruptly at noon today, when Federal Judge Rufus E. Foster sustained the motion of defense quashing the indictment against the Georgia editor. The court held that the prosecution had based its charges on parts of the article, instead of taking the entire article. On this method it would be possible to indict a person for sending through the mail a Bible, the court held.

Convicted Under Radio Act.  
New York, Oct. 21.—Elmer B. Myers, a wireless inventor and operator, was fined \$50 in the federal district court, being the first man convicted under the radio act passed by congress last June, to prevent amateur operators from intercepting messages sent ashore by ships or sent from one state to another.

# BRITISH DEAL WITH DICTATOR HUERTA

## ACT DISPLEASES ADMINISTRATION

British Envoy Presents Credentials to Dictator Huerta.

## PAGE MAKES FORMAL INQUIRY

American Ambassador Sounds Foreign Office at London as to What is Constructed at Washington as an Unsympathetic Attitude Toward the United States by the British Minister to Mexico.

Washington, Oct. 21.—While there was no change in either the status of affairs at Mexico City or the American policy, an international phase of the Mexican situation that attracted wide attention was the formal inquiry made by Ambassador Page at London as to what was construed here as an unsympathetic attitude toward the United States by Sir Lionel Carden, the British minister to Mexico.

It is understood that the basis of the inquiry was a confidential report to the state department. It is known that what particularly displeased President Wilson and Secretary Bryan was the presentation by the British envoy of his credentials to Provisional President Huerta the very day after the latter had proclaimed himself dictator.

The American government felt that Huerta's nullification of the Mexican constitution, not only by his arrest of the deputies but by his assumption of legislative powers, had so altered affairs in the Mexican capital that the British minister might well have withheld his presentation of credentials.

Inquiry was directed to determine whether the British foreign office had instructed Sir Lionel to present his credentials notwithstanding Huerta's assumption of powers.

The explanation of the British foreign office was noted in press dispatches, that the presentation of credentials was merely a coincidence and not antagonistic to the American point of view, was not commented upon by officials.

Diplomatic circles interpreted the new development as strongly intimating the desire of the United States to have a free hand in dealing with the Mexican problem.

The fact that Great Britain had recognized Provisional President Huerta rendered it necessary, it is argued in London, that the British minister should present his letters without delay and so obtain official standing.

Neither the president nor Mr. Bryan would discuss Former Ambassador Wilson's attack on Secretary Bryan.

## Drilled Stone Puzzles Stonemen

A stone that has puzzled all who have seen it was brought to the Republican office Wednesday by William Harper, who found it deeply buried in the gravel on the George Moore farm on the Upper Bellbrook pike. The stone, which weighs 12 pounds, is honeycombed with large drill holes and one hole passes completely through.

W. G. Harrington, of the Aetna Powder Co., Earl Dodds, of the Dedo granite company and William Cleveland, a veteran stone worker of the Dolls company, say they never saw any holes of this kind made by drills now in use. Furthermore, the stone, which is a fine limestone conglomerate, has all its edges rounded and smoothed by weathering. It is evidently a fragment of a larger piece for some of the edges are broken drill holes.

When Mr. Harper found the stone the mouths of the holes were downward and there was no gravel or dirt in them. The gravel below where the stone was has been removed since but no other similar pieces have been found. The curious find seems certainly to be the work of man, but the indications are that the workman must have lived centuries ago. The stone is now at Babb's hardware store.—Xenia Republican.

## Want Auto Owners To Go Slowly

The officers of the Ohio State Automobile Association have notified the Athens Automobile Club to request all automobile owners to delay ordering their 1914 license tags. An action is now pending in the courts brought against the state to enjoin the enforcement of the new Ohio auto license law. The money derived from the license, which amounts to about half a million dollars, is thrown into the state general fund. The auto owners are fighting to have this money expended on improving state roads as the law originally provided instead of using it to pay the many salaries of the new commission officers and other Cox administration appointees.

The Ohio Automobile Association believes that it will win in the fight now being waged against the manner in which the license money will be spent next year and for that reason asks that all auto owners delay the securing of license tags as long as possible.—Athens Messenger.

## IMPORTATION OF BEEF SHOW GREAT INCREASE

Fair Idea of Cattle Shortage in the United States May be Gleaned From Study of Accompanying Figures Which Show Big Increase in Beef Imports and Decrease in Cattle Exports.

Washington, D. C., Oct. 21.—The recent transfer of the United States from the small list of beef-exporting countries to the large list of beef-importing countries is sharply illustrated by the August figures of imports and exports of beef and beef cattle and a comparison thereof with the August figures of earlier years just made by the Bureau of Foreign and Domestic Commerce of the Department of Commerce. This shows that the exports of beef and beef cattle have fallen from 44 million dollars' value in the 8 months ended with August, 1904, to practically 1 million in the corresponding months of 1913, and that the imports of cattle meantime increased from 9,357 in the 8 months of 1904 to 340,105 in the same period of 1913, and their value from \$181,145 in 1904 to \$5,671,842 in 1913. As to beef, the importations in 1904 were insufficient to justify their statement month by month, and the total value of beef imported for consumption in the full fiscal year 1904 was but \$14,922, while the single month of July, 1913, showed a total importation of 642,394 pounds valued at \$56,993; August, a total of 1,151,626 pounds, valued at \$89,204; and September about an equal amount.

Given the value of the comparatively small number of cattle exported is now less per head than in earlier years, despite the general advance in prices meantime. The average export price of the 18,069 head of cattle in the 8 months ended with August, 1913, was \$34, against an average of \$68 for the 415,865 head of cattle exported in the corresponding months of 1904. On the import side there is a decrease of about 20 per cent in the valuation per head, the 340,105 cattle imported in the 8 months ended with August, 1913, being valued at \$15 per head, compared with \$12 per head for the 9,357 cattle imported in the corresponding months of 1904. The character of the cattle imported differs, of course, radically from that of those exported, being mostly, on the export side, grain fed animals ready for slaughtering, and on the import side, grass-fed cattle in many cases but 1 or 2 years of age. Practically all of the cattle imported, other than those for breeding purposes, are brought from Mexico, that country having supplied, in the fiscal year 1913, 391,477 of the 420,261 head imported for other than breeding

purposes. Of the 1,388 imported for breeding purposes, free of duty, 945 were from England.

Imports of beef show remarkable gains within the very recent period. In the fiscal year 1904 the quantity of beef imported for consumption was 169,509 pounds valued at \$1,922, against 923,378 pounds valued at \$61,110 in the fiscal year 1910, and 3,957,700 pounds valued at \$303,934 in 1913; while in the single months of July and August the imports aggregated 642,394 pounds and 1,151,626 pounds, respectively, and partial returns indicate that the September figures will also approximate one million pounds.

## RELIGIOUS SERVICES IN CHILDREN'S HOME

A movement has been organized by Rev. Gage with the cooperation of the Y. P. C. E. Society of the Presbyterian church, to hold religious services every Monday night at the Children's Home for the religious instruction of the children.

Supt. and Mrs. J. A. Tway have well established a Children's Home choir and have given all the help possible to moulding the children in the right direction, but outside of their individual efforts there has been no religious training in regular services.

Rev. Gage has pledged himself to secure a speaker for each Monday night and to furnish transportation to and from the Home and the Children's Home choir will furnish the music.

The idea is an excellent one, giving the children the opportunity of attending a weekly religious service.

Sixteen members of the Y. P. C. E. society of the Presbyterian church drove to the county infirmary Sunday afternoon to add music to the regular services.

Miss Dorothy Fullerton was chairman of the music committee, Miss Mazie Kessler violinist and Miss Jane Paul, pianist.

The county provides a certain sum each year for services at the infirmary and this money pays for a minister every second Sunday. The Bloomingburg W. C. T. U. secures a minister for one of the off Sundays and the Y. P. C. E. society has made known its intention to provide for the fourth Sunday. Rev. Forrest, of the M. P. church conducted the Sunday afternoon services.

## Does Your Hair Spoil Your Face?

If your glass reflects good looks—nice features that would make you considered pretty if only your hair were more becoming—don't you mourn about it. Instead of mourning or envying others whose hair is prettier than yours, use Harmony Hair Beautifier, and let others envy you. It is a delightful liquid hair dressing to beautify the hair—make it glossy, softer, easier to put up in graceful, wavy folds that will "stay put." It shines the hair until it shines, and overcomes the unpleasant, oily odor, with a delightful fresh rose fragrance. Harmony Hair Beautifier is very easy to apply—simply sprinkle a little on your hair each time before brushing it. Contains no oil; will not change the color of hair, nor darken gray hair.

To keep hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. ## Mexico in History and Fiction

For many months Mexico has held the stage center of the world's news; has shocked governments and peoples by its methods and has aroused grave apprehension as to its future actions.

To understand this modern Mexico one should have some acquaintance with ancient Mexico and the dusky races which lived and loved in that country when Columbus crossed the seas.

No work will give a more interesting and reliable account of the ancient civilization of that country than "The Conquest of Mexico" by William H. Prescott.

Wonderful is Prescott's description of the coming of Cortez, summing up its importance in these words: "Among the remarkable achievements of the Spaniard of the sixteenth century, there is no one more striking to the imagination than the conquest of Mexico. The subversion of a great empire by a handful of adventures, taken with all its strong, picturesque accompaniment, has an air of romance rather than of sober reality."

The Mexico of today cannot be fairly judged without this knowledge of it during the early part of the sixteenth century, for from that country a civilization which might have instructed Europe was crushed out by Spain—Spain, whose evil destiny it has been to ruin two civilizations, Oriental and Occidental, and thereby to ruin herself.

A work of historical fiction of this period of absorbing interest is Lew Wallace's "Fair God," a romance of the Tzins and the coming of Cortez in 1519.

After reading this remarkable history and equally remarkable novel, the reader can glimpse beyond the centuries the pageantry and picturesqueness, the adventure and the recklessness of that early Mexico.

Something of our own relations with their turbulent country is learned from "Mexico and the United States," by Matias Romeo. "The Life of Sam Houston," with his thrilling defeat of the Mexicans at San Jacinto in 1836 makes thrilling reading. Andrew Jackson said of Houston: "Thank God, there is one man at least in Texas, whom the Almighty had the making of and not the tailor."

Passing again into the realm of fiction, read Amelia Barr's "Remember the Alamo" and "The Lone Star," by Eugene P. Lyle, Jr. "The Missourian," also a novel by Lyle, is true enough to the period of Napoleon III, and the tragedy of Maximilian and poor mad Carlotta, to be of value. A dashing young Confederate officer and a fascinating girl of Napoleon's court try to aid Maximilian. The story echoes to the thunder of rushing cavalry and rings with the clink of spurs.

James Creelman comes nearer to our own time in "Diaz, Master of Mexico." The book is invaded by a great personality and is vividly written.

F. Hopkinson Smith, who, whether artist or author, always illuminates his subject, gives fine pen pictures of Mexico in "The White Umbrella in Mexico." There is "Unknown Mexico" by K. S. Lumholtz, "The Awakening of a Nation," by C. K. Loomis, "Picturesque Mexico," by Mrs. M. R. Wright and within the last year "Coming Mexico," by Joseph King Goodrich, touching upon industrial conditions, foreign relations and the country's attractions for tourists.

"Mexico of Today," by George B. Winton, fresh from the press, teems with information as to the country's history, politics, religions and social conditions, with emphasis on the missionary interests.

The reading of a few of these books will open your eyes to a bigger and a broader understanding of the Mexican situation.

## Poetry For Today

### OUR LIVES.

Our lives are songs, God writes the Words,  
And we set them to music at pleasure;  
And the song grows glad, or sweet, or sad,  
As we choose to fashion the measure.  
We must write the music, whatever the song,  
Whatever its rhyme, or meter;  
And if it is sad, we can make it glad  
Or if sweet, we can make it sweeter.

One has a song that is free and strong,  
But the music he writes is minor;  
And the sad, sad strain is replete with pain,  
And the singer becomes a repiner.

And the song of another has through the words  
An under current of sadness;  
But he sets to it music of ringing chords,  
And makes it a pean of gladness.

So whether our songs are sad or not,  
We can give the world more pleasure,  
And better ourselves, by setting the words  
To a glad, triumphant measure.  
—Ella Wheeler Wilcox.

## INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

It is now estimated that claims of outside investors against the Mexican government, growing out of disturbances in the country since the overthrow of President Diaz, will foot up to \$250,000,000. This fact is being impressed upon the Mexican people with the hope that it might tend to lessen disturbances.

The Chicago Americans are to wear red, white and blue uniforms on their world's tour. There will be a small American flag on the sleeve and an American shield on the neck bands.

The results of the army examinations lately were interesting, showing the democratic spirit in that body. An impassable gulf is supposed to exist between private and officers in the world's standing armies. But in the United States the private may step directly across the gulf to a lieutenant. Eleven young Americans became lieutenants in this way last month and the discipline and efficiency of the army is believed to be increased in this way.

Charles W. Armour says that if consumers discontinue eating veal until the supply of cattle is brought back to normal, bottom will soon thereafter drop out of meat prices.

So far \$320,000,000 of crop moving money has been placed in banks of the South and West by the United States Treasury. Of this sum \$25,000,000 was placed in September.

The work of reforesting about 5000 acres of denuded mountain slopes in Oregon and Washington is to be undertaken by the United States forest service. Both a direct seeding method, in which three seed is planted and the planter nursery grown trees will be employed and something over 3,000 pounds of seeds and 890,000 plants will be used. The principal kind of tree planted will be the common Douglas fir. Others are Yellow Pine, Sugar Pine, Noble Fir, White Pine and Norway Spruce. The trees are started at the government nursery in the Wind River Valley, Oregon.

Among the reporters at the recent golf tournament was the editor—and staff—of a flourishing golf periodical "The Young American Golfer." This is Willie Griffin, of Wheaton, Ill., the 11-year-old proprietor of a magazine with 5,000 subscribers, including President Wilson and former presidents Taft and Roosevelt. Besides attending to the printing and circulation, young Griffin has increased his advertising rate from \$1 a page to \$15 in these years. The young editor stayed at a big New York hotel and after the national tournament, visited other golf events in the East.

### IS YOUR SKIN ON FIRE?

Here Is a Reliable Healing Application for Eczema.

Try This Remedy at Our Risk.  
"If I could only get relief from this terrible itching, I would give anything," said an eczema sufferer the other day.

It was very easy for us to advise in such matters now, for our new remedy (Saxo Salve) for skin diseases of all sorts, stops the itching right away.

But better than that it makes the skin healthy again. It is made so as to penetrate right into the skin and saturate every portion with its healing, germ-destroying power.

Even in a few days you can see that Saxo Salve is soon going to clear away the eruption.

No other skin remedy can do so much for you as Saxo Salve. It is guaranteed. If it does not satisfy you when used for any skin disorder we give back your money. Blackmer & Tanquary, Druggists, Washington C. H., Ohio.

P. S. If you have eczema try Vinol to build up the blood. We guarantee it.

## DEMS. ELECT JUDGE

Peoria, Ill., Oct. 21.—Democrats elected Colonel Charles C. Craig of Galesburg, a member of Governor Dunne's staff, to the state supreme bench from the Fifth district. Judge Leslie Puterbaugh, Republican, who was opposed by women suffragists, headed by Mrs. Medill McCormick of Chicago, ran second to Craig. Arthur H. Shay, Progressive, got less than 9,000 votes in the district in which Roosevelt a year ago polled 36,206.

## A GLIMPSE BACK THROUGH YEARS

(John E. M. Kerr.)

March 7, 1872.

Col Yeoman and John Salmon are feeding 2,000 head of sheep on Mr. Salmon's farm in Paint township. D. G. Morris and Wm. Nelson are feeding a flock of 1,500. A great many sheep are being brought into the county and the wool crop will probably be much larger than usual.

On Thursday a number of citizens of our town, without regard to political opinions, met in Judge Willard's office for the purpose of action in regard to a corporation ticket for the spring election. The meeting was organized by appointing James Fursell, Esq., Chairman and D. Hamilton Sec'y. Remarks were made by Judge Willard and Col. Yeoman, Allen Hegler, C. H. Brownell, Wm. Millikan, Esq., and others, when the following ticket was nominated: Mayor, H. L. Hadley; Recorder, W. C. Gould; Marshal, H. P. Cherry; Treasurer, S. W. Stuckey; Council, T. M. Gray, Esq., E. C. Hamilton, A. McCandless; Cemetery Trustees, S. N. Yeoman. On motion, those present pledged themselves to support the ticket nominated.

## Aviator Maker Strong Prediction

A. V. Roe, one of the best known aviators in England, makes the startling prophecy in the London Mirror that the hydroplane of the future will carry 1,000 passengers and revolutionize ocean travel. He says the speed obtainable will be enormous, exceeding 150 miles an hour, and as the hydroplane will soon be as safe as any human invention can be, it will do away with seasickness. There is little doubt that ocean travelers would choose it in preference to a steamship. If Roe's startling prophecy is realized, passengers from New York will be in London twenty-four hours after their start.

## FATHER-IN-LAW OF HARDING IS DEAD

Marion, O., Oct. 21.—Amos H. Kling, father-in-law of Warren G. Harding, former lieutenant governor of Ohio, is dead after an illness extending over several months. He was Marion county's richest man and held large financial interests throughout the state. Mr. Kling was born June 15, 1833, in Lancaster county, Pa., but early came to Marion, where he became a banker and president of the Marion National bank. He also was director in several manufacturing concerns. Mrs. Harding has been seriously ill for several weeks and will be unable to attend the funeral.

## Only Strongest Measures Can Put Check on Occupational Diseases

By Dr. JOHN B. ANDREWS, Secretary of the American Association For Labor Legislation

FROM sickness alone our mere money loss each year is THREE-QUARTERS OF A BILLION DOLLARS. Conservative American authorities declare that at least one-fourth of this annual loss, approximately two hundred million dollars, CAN BE PREVENTED.

Recently there has been a remarkable development of interest in occupational diseases, of which "phossy jaw," lead colic, miners' asthma, batters' shakes, potters' rot, boiler-makers' deafness and brass workers' chills are merely suggestive.

The medical director for the Pennsylvania East river tunnels in 1909 reported 3,692 cases of the "bends" or compressed air illness. There are scores of industrial poisons, one of which alone, lead, is in daily use in more than one hundred and fifty trades.

These spectacular effects of occupational disease are trivial compared with the gradual lowering of vitality caused by the daily breathing of IMPURE AIR AND BY CONTINUAL OVERSTRAIN.

THE PREVENTION OF OCCUPATIONAL DISEASE IS TOO GREAT AN UNDERTAKING TO BE LEFT ENTIRELY TO INDIVIDUAL ACTION. NOT ONLY ON ACCOUNT OF THE MAGNITUDE OF THE PROBLEM, BUT ALSO BECAUSE OF ITS NATURE, THE PREVENTION OF OCCUPATIONAL DISEASES IS PROPERLY A FUNCTION OF THE GOVERNMENT.

# LOCAL FACTORIES WILL NOT MOVE TO RICHMOND

Negotiations Still Pending, However, For Branch Factory in Hoosier State, But Deal May Not Be Closed For Weeks, If Closed at all—Increased Factory Capacity Here is Possible.

No Washington factories will be moved to Richmond, Indiana, as contemplated some time ago, when prominent members of the Richmond Board of Trade made visits to this city with a view to closing negotiations with local factory owners for establishing the factories in the Hoosier state, and escape what appeared at that time to be a much more stringent labor law than the final interpretation of the law.

Notwithstanding the fact that it has been decided by local men that the factories here will not be moved, but will continue in full operation here, negotiations are still pending between local men and the Board of Trade of Richmond, looking toward the eventual opening of a branch factory in that city.

The Richmond men, who were apparently real hustlers, have been acting very slowly of late, it is claimed and it may be some time before negotiations are brought to an end by establishing a factory in Richmond or breaking off negotiations entirely.

It will be pleasing news to local citizens in general and particularly to those employed in the factories to know that the factories will continue to "do business at the old stand" with possibilities of increasing the capacity of the plants.

## INDIANA TAKES LOCAL MAN'S BOOK

At a recent meeting of the Board of Trustees of the Indiana State Reading Circle, four books were selected out of 200 submitted, and one of the four was Mr. Hugh C. Weir's book entitled, "The Young Skipper of the Great Lakes", which he wrote while in this city last year.

In selecting the book for the entire reading circle, the Board of Trustees placed an order for 3,000 copies of the work.

This is the second book written by Mr. Weir that the Indiana State

Reading Circle has picked out from among a large number. The first book was "With the Flag in Panama."

## O. E. GWINN SUED FOR \$37,500

O. E. Gwinn, formerly of this city is defendant in a suit filed in Columbus in which judgment in the sum of \$37,500 is asked by the plaintiff.

Concerning the suit the State Journal of Tuesday says:

"Alleging violation of contract, Charles G. Campbell yesterday in common pleas court filed suit against O. E. Gwinn, asking judgment of \$37,500 together with interest. Mr. Campbell alleges that on August 16, 1913, the two entered into an oral agreement by which he was to turn over to Gwinn certain properties owned by him in Kansas City and a note for \$2500.

"In return Mr. Gwinn was to give him, he says, 4,000 shares of capital stock in the American Carrara Marble Company, worth about \$46,000. Mr. Campbell declares that he fulfilled his part of the contract, but that Mr. Gwinn has failed to "come across."

Thomas & Hays are Mr. Campbell's attorneys.

The French city of Grenoble plans to make itself a health resort by piping to baths curative waters from a lake 25 miles away.

## YOUNG BRIDE DRINKS ACID

Mrs. Chesley Kramer, nee Elliott, formerly of Hillsboro, but who has been living with her husband, Clarence Kramer, in Springfield for a short time, committed suicide Monday evening by the carbolic acid route.

She was married seven months ago and lack of domestic tranquility is said to have prompted the awful deed.

The following letter was found in the room where she ended her life:

"To My Dear Lost Love:—Chesley I am leaving for the best. I don't think we would ever get along is the reason I am doing this. We may both some day regret what we have done. If you want to stay here and rent a room, I will help you but I would advise you to go home. You know more people and you can have a better time. I will come up tomorrow and get the rest of these things out, so goodbye."

"What can I do but die, after reading that? Chesley," was scrawled upon the back of the note.

## ANOTHER ONE FROM WILMINGTON

In conversation on the B. & O. last week with a party of friends, one of the prominent legal lights of the town, in which the Court House of Clinton county is located, speaking of Washington Court House, said: "When a party of our people from Wilmington attended the Home Coming there, the first day we saw all the Reception committee and almost everybody else, wearing the buttons on which was printed, 'We live in Washington, ask me'. The second day not a button could be seen, all on account of we Wilmington visitors having said to them, 'Why'?"

Just to think of that coming from the town of Wilmington that professed to have a sisterly affection for our own beautiful city of Washington, the "Little Bristle of Ohio." Contributed.

## Dangerous Accident At Handle Factory

What might easily have been a very serious accident occurred at the Washington Handle Factory Tuesday morning when a cast wheel on one of the shapers flew to fragments, some of the pieces crashing through the roof and others flying about in the factory, but fortunately no one was injured and the damage will not exceed \$25.

It is said that the governor on the engine became disarranged, allowing the engine to race, speeding up the shaper to such a point that the 24-inch cutting wheel flew to pieces.

Fortunately no one was in the path of the flying pieces of iron, or the accident would have had a much different ending.

## Spurious Coins In Springfield

Counterfeit dollars have again made their appearance in this city and the local police department is on the hunt for the persons who are scattering the spurious coin. Several dollars were passed about the city Saturday, and in the rush of business they were not detected until too late to capture the offender.

Traffic Officer Young secured one of the coins that was passed on a street car conductor. It was said the man who gave the conductor the money got off near the Pennsylvania railroad tracks. The coins are crude and easy to detect, one part where the metal was poured into the mold being unmlled.—Springfield Sun.

## WILL CONSTRUCT HANDSOME HOMES

Architect J. Howard Hicks of this city has completed plans for handsome new residences to be erected by Lincoln Kirkpatrick, of New Holland, and Ed Glaze of Marion township.

The Kirkpatrick home is to be an 8-room bungalow, with bath, sleeping porch and will be brick veneered with tiled roof. It will cost approximately \$5,000. The foundation for the new residence has been laid.

Mr. Glaze will erect an 8-room residence, stucco and frame, and now has the basement completed. Both residences will be finished next spring.

## Citizens Still Angry Over Nefarious Work

Some of the Sunnyside residents are at white heat over the dog poisoner's work and threaten the fellow with the punishment he so richly deserves if his identity is established, and there is a movement on foot, it is claimed, to ferret out the guilty party and have him punished to the full extent of the law.

Not only has the rascal caused the death of a number of fine dogs, but has nearly ended the lives of others, and some of the citizens are fearful lest their small children pick up some of the poison scattered about for the dogs of the neighborhood.

Indignation has reached a point where the fellow may meet with physical violence among the neighbors he has wronged, if his identity becomes known.

"The fellow that has been spreading the poison is a much meaner, lower down, contemptible cur than the dogs he has poisoned," is the way one man expressed himself in speaking of the outrage.

Pankhurst, Crying Happily, Talks Of Her Liberation.

## ROASTS M'KENNA AND ASQUITH

Noted English Militant the Guest of Honor at a Banquet Tendered Her by the Aldine Association, Before Which She Talks of Prison Experiences—Suffragist Leader Soon to Speak in Ohio.

New York, Oct. 21.—Mrs. Emmeline Pankhurst, the English militant suffragist whom Washington officials permitted to land, is the guest of Mrs. Perry Belmont.

"One, no, two men in England," she cried happily in speaking of her liberation from Ellis Island, "will be disgusted to learn of this. I mean Mr. McKenna and Mr. Asquith. Mr. McKenna is a narrow-minded, pig-headed, ignorant, obstinate person—a negation in all liberal principles." Her liberation, she said, was "a good slap at the Liberal government" back home, and she repeated her former assertions that doubtless British officials had interested themselves enough in her visit to America to further any efforts to have her deported. A combined assemblage will be held at Madison Square Garden tonight, made up of the speakers originally scheduled to address the Carnegie hall and Garden meetings Friday night. The meeting at Carnegie hall has been called off.

Mrs. Pankhurst said she would remain as Mrs. Belmont's guest until Friday, when she will leave with her secretary and advance agent, Miss Joan Wickham, to address a meeting at Cleveland Oct. 25. She will speak at Canton, O., Oct. 27; Dayton, Oct. 28, and Cincinnati, Oct. 29.

Mrs. Pankhurst, at a dinner given in her honor at the Aldine association's rooms in the Fifth avenue building, made a speech that was received with enthusiasm and cheers, with hisses thrown in when the name of Asquith or Home Secretary McKenna were mentioned. Cries of "shame, shame," were heard when Mrs. Pankhurst told of the prison experiences of the militants.

There was a hushed, intense

## MADE BY WILSON HIMSELF

Was the Decision in Favor of Admitting the English Suffragist.

Washington, Oct. 21.—Commissioner of Immigration Caminetti made public his reasons for having reversed the Ellis Island board's decision and admitting Emmeline Pankhurst, the militant suffragist, to this country.

Although Commissioner Caminetti promulgated the order reversing the findings of the Ellis Island officials, the decision in favor of Mrs. Pankhurst was in reality made by the president himself.

Under the decision admitting Mrs. Pankhurst on her own recognizance she may be deported at any time if she should cause trouble. There was doubt in the minds of the president, Secretary Wilson and Commissioner Caminetti as to whether the misdeeds for which Mrs. Pankhurst had been convicted in England involved moral turpitude or were really political in character. It was this doubt which influenced them to admit her.

## NEW STARS WILL BE BROUGHT WITHIN VISION

Los Angeles, Cal., Oct. 21.—The concrete pier which will support the longest telescope in the world was completed on the crest of Mount Wilson. The telescope, which will have an 100-inch lens, will improve the Carnegie solar observatory, which at present is supplied with a 60-inch instrument. By means of the new glass, it is predicted, photographs of stars will be made which heretofore have been impossible.

## BOSSES TO SUFFER MORE LOSS OF POWER

Columbus, O., Oct. 21.—Basing his opinion on a statute which requires that contracts for public improvements costing over \$500 must be awarded by competitive bidding, Attorney General Hogan holds that it is illegal for the director of public service to allow individual departments to carry to completion improvement work by hiring day laborers. The opinion rendered by the attorney general, it is declared, will have a great political bearing in many cities, in that it will have effect to halt to a vast extent that end of machine politics affecting the wholesale employment of laborers.

## SLIPS ON ICE IS BADLY HURT

The first accident of the season as a result of the cold weather occurred at The M. Hamm Fertilizer company's plant about two o'clock Tuesday morning when night watchman, Arthur Harley slipped on the ice and fell heavily to the ground, injuring his right hip so that he was almost helpless.

As soon as he could move he dragged himself to the telephone and succeeded in securing assistance. He was taken to his home and medical assistance was necessary to ease his sufferings. It will be several days before he will be able to go about his regular duties.

## ATHLETICS IN SCHOOL LIFE

Side lights upon Athletics and the necessity of physical development in connection with student life is effectively brought out in following excerpts from sermon of Rev. W. Boynton Gage, upon occasion of the High School Recognition Day services held at the Presbyterian church Sunday evening:

"The splendid man must be the splendid animal. Realizing this, in the equipment of that magnificent specimen of architecture of which we are so proud, the High School building, there is a gymnasium; upon the faculty there is an athletic coach; and superadded to the playground is the athletic field.

"But this matter of High School athletics is very much in debate now days by reason of the physical danger supposed to be involved. But after an experience of eight years in a college pastorate where there was an enrollment of about 2000, and a full quota of teams, I bear this testimony, that I never yet was called upon to pay a visit to one sick or injured by reason of his participation in the games. I saw them sometimes limping and limping, but cheerful, smiling and able to be about. But each year there were hundreds who succumbed to attacks of disease by reason of the inability of the body to resist it, some of them finally dying.

"In fact the grim spectre of physical danger lurks not so much in High School games as in High School studies. The course is continually being geared higher. Some of us older ones would hardly be able to stand the pace of this generation. And we welcome the institution of an industrial department, affording thereby to lads not intellectually qualified, the opportunities of a High School course.

As one wearing glasses, I am interested in knowing how many eyes have the vision dimmed, and how many finally become sightless; I am interested in knowing how many headaches are produced; I am interested in knowing how many girls come to commencement with shattered nervous systems; and how many boys and girls are physically weakened by a course of study in which the body does not receive due development and care.

"I am sure that these statistics, if compiled, would surprise us. Yet we shrug our shoulders in a kind of horror at the record of a few paltry injuries received in the development of the body, and which the recipient most cheerfully bears, forgetting to even shed a tear for those who in the protection of their bodies from injury, come ultimately to the heritage of a weakness that makes an easy prey to disease."

## More Bloodhounds At Cedarville

Queen, the female of the pair of bloodhounds recently purchased by the Cedarville Protective Association, is the mother of five fine puppies. All are strong, healthy little animals and are being carefully cared for by Marshal Kennon who has charge of the dogs. The pure bred puppies are valuable animals, and can be disposed of by the Association at fancy figures. They will be kept by the Association until large enough to be thoroughly trained before being sold.

The work of the bloodhounds in running down the men who cut the bee tree on Kale Johnson's farm, indicate the dogs can do good work when circumstances are favorable.

## HIGH CORN STUBS CAUSE LAW SUIT

Corn stubs 15 inches to more than three feet in height forms part of the grounds given by Leonard Butts for refusing to pay W. H. Johnson for cutting his corn.

The case was appealed from Justice J. B. Koontz's court, where the court had awarded the plaintiff, W. H. Johnson, \$39.90 as the amount due him, although the plaintiff had sued for \$81.90. The defendant claimed that he paid Johnson \$42 of the amount, and that by reason of damages sustained because the corn stubs had been cut so high, and because the job had not been done in a workmanlike manner as agreed upon before the work commenced.

## SHIPPING CAUGHT IN STIFF STORM

## VIRGINIA COAST WHIPPED BY A GALE

Three Vessels In Collision In Hampton Roads.

Norfolk, Va., Oct. 21.—Shipping along the Virginia coast and in Hampton Roads suffered severely from a 50-mile southwest gale. Scores of vessels sought shelter in Hampton Roads.

The wind was so severe in the roads that three ships were in collision. The Norwegian steamer Tordenskjold collided with a barge at Lambert's Point. The barge had a hole stove in her starboard bow and the steamer had several plates dented. The British steamers Ducasin and Storton came together when trying to dock at Sewall's Point. The captains lost control of the vessels in the gale. Both were damaged so badly that they will have to go into drydock.

Government barges No. 8 and No. 208, loaded with ammunition, were torn away from the big naval tug Massasoit during the height of the storm and ran wildly for nearly an hour. No. 8 was driven ashore and sank before a tug could reach her. No. 208 was picked up by another tug. The battleships Vermont, Kansas and New Jersey, which were having target practice off the capes, came into Hampton Roads to get out of the storm.

## MORE BLACK RAIN FALLS IN FAYETTE

Numerous rural residents have commented upon the fall of "black rain" sometime Saturday night, and one man states that evidences of the rain, in the way of a black deposit, may still be seen in the roads where pools of water collected.

This phenomenon was remarked in this and adjoining counties last year, and attracted considerable attention. While "black rain" is uncommon it is hardly a rare occurrence in this part of the country.

Various explanations have been offered as the cause of the dark colored rain, one of the principal reasons advanced being the presence of soot high in the air which is collected by the moisture and carried to earth.

It is claimed, however, that an analysis of the "black rain" does not show the presence of soot.

## "BLIZZARD" SWEEPS FAYETTE COUNTY

For a while Monday evening Fayette county was in the throes of a real "spell" of winter, and the cold wind hurled the sleet with great violence, causing humanity to shrink from it and seek shelter by stoves that were working almost full power.

It was the first real winter of the season, and Monday night a heavy freeze followed the Borean blast from the north.

According to the weather man the coldest of the present spasmodic change has passed, and the last half of the week will be fair.

## BALL GAME IN SNOW

Springfield, Ill., Oct. 21.—The Giants made it three straight in the scheduled world-tour games with the White Sox here. The score was 6 to 4. Doolan's home run drive in the fourth with the bases full decided the issue. The game was staged following a light snowstorm and with a chilly wind blowing. A fair-sized crowd was in attendance. Governor Dunne walked out to the pitcher's slab and started the game by pitching the first ball.

# GAME WARDEN SACKETT IS AFTER VIOLATORS

Comes Here From Active Campaign in Ross County Where He Has Made Many Arrests and Assisted in Organization of Fish and Game Protective Association—Report of Illegal Fishing on Rattlesnake.

Deputy State Game Warden J. S. Sackett, who operated here a couple of months ago, and has since spent much time in Ross county where he has assisted in the organization of a Fish and Game Protective association in the county again, arriving Monday evening, and will probably remain within the county's borders for several days.

Reports of the small number of hunters' license issued here, and that illegal fishing was going on in some of the streams of the county, are said to have brought the officer here to make a thorough investigation.

Deputy Sackett has been in the fish and game commission's employ for a number of years, and has a great many convictions and fines to his credit. In Ross county he has been making many arrests of violators, and in establishing a fish and game association in Ross he now has a large number who will aid him in his work, as demonstrated a day or two ago when two members of the association were driving along the road and beheld a man hunting. Even as they looked the man fired and killed a rabbit. He was ordered to report to the court, which he did and drew \$25 and the costs.

Quite a number of Fayette countians have expressed a willingness to become members of a county fish and game association, and such an organization may be made here within a short time.

Before leaving this county Deputy

Sackett expects to run to earth some parties who are alleged to have used illegal methods in capturing a large number of fish in Rattlesnake creek a few nights ago.

## Eggs Worse Than The Work House

A penalty to suit the offense, even though the penalty is not expressly written into the statutes of Ohio, is the plan put into execution by Mayor Walters, who presides over the police court at Marion.

A. G. Brant was arrested for a theft of eggs and at first the mayor expected to send him to the workhouse, but later on he directed that the man be confined in the city prison and fed on the eggs he had stolen. Fried eggs, boiled eggs, hard and soft, omeletes and eggs in every form have been fed to him until Brant declares that he is so sick of eggs he will never look a hen in the face again without having the stomachache.

"I'd rather have gone to the workhouse," declared Brant Sunday after his release from jail.

## Allen-Smith Case Drawing to Close

All of the evidence had been submitted in the \$20,000 damage case of Frank M. Allen against T. T. Smith Tuesday noon, and the arguments were commenced Tuesday afternoon.

It is expected that the case will go on to the jury some time tomorrow. Good progress has been made in the case.

## Hartman Theater

On Friday and Saturday, October 31st, and November 1st, with a matinee Saturday, the Hartman theater will offer one of the strongest plays ever produced on the American stage—a play which has made a profound impression on all who have witnessed it. This production is "Damaged Goods", and it has been endorsed by the leading physicians, teachers, ministers and sociological workers in this country so it is probable that it will appeal to all theatergoers. A special presentation was given for the above mentioned prominent leaders in the various professions and the statements from them indicate how well the dramatist has done his work. One prominent Washington pastor says "The dramatic presentation of this terrific message, so much more powerful than any other kind of presentation could possibly be, will be of such inestimable value and so great an opportunity for a city that it becomes a solemn duty of all citizens who can to attend." Surely, the play needs no stronger endorsement than this.

## FRIENDLY TO HUERTA

Europeans Friendly to Huerta. Mexico City, Oct. 21.—As the government seems to be recovering from the demoralization which followed the fall of Torreon and the arrest of the deputies, the European diplomats are returning to their former attitude in favor of President Huerta. They now seem to be resentful of the American support of the forces which are openly at war with a government which they have recognized as a friendly one.

## UNTAMED IMMIGRANT

New York, Oct. 21.—Defying all the immigration inspectors and customs men, Miss Katherine Cook, 23, a Scotch girl with a temper as fiery as the famous hot drink of the Highlands, was detained on the steamer California. Miss Cook refused to tell the inspectors whom she was to visit in America. When customs inspectors tried to examine her baggage on the pier Miss Cook would not give up the keys to her trunks.

## ANSWERS GRAVES

Columbus, O., Oct. 21.—In an answer filed in supreme court, the Ohio Equity association, through Charles S. Gongwer, its secretary, again charges that Secretary of State Graves abused his discretionary power in throwing out the petitions for referendums on the Warnes and Kilpatrick taxation laws. The answer is a reply to the answer of Secretary of State Graves, denying that he was actuated by any but proper motives in rejecting the petitions.

## GORGAS WILL FIGHT DISEASE IN AFRICA

New York, Oct. 21.—Colonel William Crawford Gorgas, chief sanitary officer of the Panama canal zone, who begins a leave of absence to go to Johannesburg, South Africa, and make an effort to check the ravages of pneumonia among 200,000 negro miners there, arrived here from the canal zone. While in the isthmus Colonel Gorgas said he had had serious epidemics of pneumonia among the negroes in the first two years of the work and that the segregation of infected persons had been one of the means of suppressing the disease.

## OHIO HAPPENINGS

### Killed Himself to Avoid Arrest.

Zanesville, O., Oct. 21.—William B. Kirk, 30, a pottery worker of this city, committed suicide to avoid being arrested. Kirk had threatened to kill several people at his boarding house, following a quarrel. They telephoned the police and within five minutes Kirk was seen walking past the station. Chief John Arter detailed two men to arrest him, and when Patrolman Frank Huey took hold of his arm Kirk drew a revolver and shot himself through the head, dying instantly.

### Girls' Dormitory Burns.

Oxford, O., Oct. 21.—The senior house of Oxford College for Women was destroyed by fire. It was a two-story frame dwelling across the street from the main college building. The occupants lost everything they had in the building. No one was in the dormitory when the fire broke out, all having

been in the main building. An over-heated furnace caused the fire. The loss is \$8,500.

### Two Hit by Automobiles.

Cleveland, O., Oct. 21.—Blinded by the driving rain, five persons walked in front of automobiles and two of them received fatal injuries. Miss Mary Costello, 45, was thrown against the curb and her skull was fractured. She died on the way to a hospital. William Kepz, 50, also was thrown against the curb and sustained scalp wounds and a broken leg and internal injuries.

### Wants Women to Help.

Chillicothe, O., Oct. 21.—The Ohio Federation of Women's Clubs, in session here, was asked to co-operate in a public health campaign. The request came in a letter from Secretary E. F. McCampbell of the Ohio state board of health. Dr. McCampbell urges the women's clubs throughout the state to join in the movement "to make Ohio the healthiest state in the Union."

### Killed Boarder; Paroled.

Dayton, O., Oct. 21.—Mrs. Sallie Dickerson, indicted for murder in the second degree for the killing of Elmer Hardy at Harris Station, east of Dayton, Sept. 6 last, pleaded guilty and was given a suspended sentence of from one to 20 years in the penitentiary. She killed Hardy, who was a boarder, in a quarrel.

### Senate to Drop Salem Case.

Washington, Oct. 21.—Investigation of the appointment of George H. Gee as postmaster at Salem, O., through an alleged political deal, was defeated in the senate only after Senator Bacon had thrown the body into executive session and Senator Burton's resolution for investigation had been beaten by lack of a quorum.

### ENGLAND REFUSES TO STATE POSITION NOW

By Associated Press.

London, England, October 21.—In his discussion of Mexican affairs with the American ambassador, Walter H. Page yesterday, Sir Edward Grey declined to bind the British government to any particular policy after the election in Mexico. In this re-

spect, therefore, the policy of the British government differs from that of the United States. The British attitude, according to Sir Edward Grey, is that matters should be left alone until after the election, and that future action should be based on the result.

### CURRENCY BILL UP AGAINST IT DECLARES MANN

By Associated Press.

Washington, D. C., October 21.—Minority Leader Mann in a statement today, said that he is "willing to stake my legislative judgment for all time to come," that the Currency bill will not be reported as the President thinks it will be, "that it will not be passed in December." "Everybody except the President knows that the bill will not be passed now," he said.

### HUMPHREYS REPRIEVED

By Associated Press.

Columbus, Ohio, October 21.—Leslie Humphreys, under sentence of death for murder, was reprieved today by Governor Cox, to give him an opportunity to appeal to the State Board of Pardons for commutation of sentence. He was to have been electrocuted after midnight Wednesday. Humphreys was convicted of killing S. E. Kelley of West Virginia, several months ago. The alleged motive was robbery.

### SUNDAY SCHOOLS OF PROTESTANTS SHOW BIG LOSSES

By Associated Press.

New York, October 21.—A heated debate over the negro question in the South enlivened deliberations in the House of Deputies of the Protestant Episcopal church at today's session of the General convention. A majority report by the committee on Racial Episcopate, with recommendations against the proposal to establish separate churches, dioceses, clergy and bishops for Southern negroes was presented. A minority report advocating the separation of the races and the appointment of negro bishops to sit in the House of Bishops with powers equal to the whites was presented.

New York City, October 21.—A loss of more than 16,000 pupils within the last three years from the Sunday school of the Protestant Episcopal church in the United States was reported to the General convention of the church today by the committee on the state of the church. The report asserted that the Sunday school throughout the country had on their rolls per day fewer than they had in 1910.

### STORM BRINGS HIGHEST TIDE IN 20 YEARS

By Associated Press.

Baltimore, Md., Oct. 21, 1913.—The eastern shore of Maryland was visited by a severe storm of wind and rain last night. Practically every town along the water front suffered severe damage from high water, the tide being the highest experienced in 20 years. In many places water covered the streets from 12 inches to 5 feet in depth. A new \$20,000 concrete bridge near Easton was carried away during the storm and the Metropolitan Life Insurance Building in Easton was destroyed by fire.

### FRENCH START RECORD FLIGHT

By Associated Press.

Issy Les Moulineaux, France, Oct. 21, 1913.—The longest aeroplane flight ever attempted was started here today by the French Aviator, Pierre Baneurt, accompanied by another Frenchman, Henry Roux. Cairo, Egypt, is their goal, a distance of 3348 miles. Supply stations have been established at distances of 250 miles.

### FEAR VESSEL AND 12 MEN ARE LOST

By Associated Press.

Pensacola, Fla., Oct. 21, 1913.—In fear that the Highball, with 12 men aboard, was lost in Escambia Bay during the storm Sunday night, the Revenue Cutter Penrose was ordered out in search today. The launch left here Sunday for a trip that ordinarily would require but a few hours.

### BLINDED BY SNOW KILLED BY FREIGHT

By Associated Press.

Chicago, Ill., October 21.—The first snow of the season fell here this morning, at times almost reaching the proportion of a blizzard. The mercury dropped below freezing point. Charles Blake, 40, switchman, blinded by the snow was run down by a freight train and killed, and a number of persons were reported injured in accidents as a result of the snow.

### Defense Sustained Watson Released

By Associated Press.

Augusta, Ga., October 21.—The trial here of Thomas Watson, charged with sending obscene matter through mail, ended abruptly at noon today, when Federal Judge Rufus E. Foster sustained the motion of defense quashing the indictment against the Georgia editor. The court held that the prosecution had based its charges on parts of the article, instead of taking the entire article. On this method it would be possible to indict a person for sending through the mail a Bible, the court held.

Convicted Under Radio Act.  
New York, Oct. 21.—Elmer B. ### SENATORS FLAY ABSENT MEMBERS

By Associated Press.

Washington, D. C., October 21.—The demands that Senators either "quit, resign or go to work"; that absent members be brought back to Washington by the use of "any force that may be necessary," and that the miserable pretense of trying to do business without a quorum be ended, marked the opening of today's session of the Senate. Leaders on both sides joined in the demand that the "farce" of recent Senate proceedings be ended. Senator LaFollette began the attack on absentees, but it was taken up and endorsed by Senators Kern, Borah, Cummins and others. Figures given by Senator Kern showed that 31 Democrats were in Washington and 17 absent, and 19 Republicans in Washington and 23 absent.

### Mrs. Eaton Was Very Fearful

By Associated Press.

Plymouth, Mass., October 21.—Conditions in the home of Rear Admiral J. G. Eaton before his death were described by witnesses today at the trial of Mrs. Eaton who is charged with the murder of her husband. Several witnesses told of hearing Mrs. Eaton express fear that Mr. Eaton would harm himself or other members of the family. She said he was of unsound mind, witnesses said. Frank S. Alger, a newspaper man, said he did not think Eaton was insane, but said he noticed certain peculiarities of speech and manner, due perhaps to long service in the navy.

### Huerta Makes Bid For Bunch of Ready Money

By Associated Press.

Washington, D. C., October 21.—In connection with the 50 per cent increase of the custom duties on imports into Mexico, General Huerta,

with the design of obtaining ready money, has offered to allow importers a 10 per cent discount of certificates guaranteed in payment of such duties if they are issued between October 28 and November 6.

By Associated Press.

San Domingo, Dominican, October 21.—The Dominican rebels at Puerto Plata today agreed to accept the conditions of the treaty of peace which was arranged some time ago through the efforts of James M. Sullivan, American Ambassador to the Dominican Republic. Hostilities have ceased.

### ROOSEVELT REACHES BRAZIL THIS MORNING

By Associated Press.

Rio Janeiro, Brazil, Oct. 21, 1913.—Col. Theodore Roosevelt landed here today from the steamer Vandyk and was received by a great gathering of the most prominent people in Brazil. President Fonseca was unable to be present, but he sent a special representative.

# BRITISH DEAL WITH DICTATOR HUERTA

## ACT DISPLEASES ADMINISTRATION

British Envoy Presents Credentials to Dictator Huerta.

## PAGE MAKES FORMAL INQUIRY

American Ambassador Sounds Foreign Office at London as to What is Constructed at Washington as an Unsympathetic Attitude Toward the United States by the British Minister to Mexico.

Washington, Oct. 21.—While there was no change in either the status of affairs at Mexico City or the American policy, an international phase of the Mexican situation that attracted wide attention was the formal inquiry made by Ambassador Page at London as to what was constructed here as an unsympathetic attitude toward the United States by Sir Lionel Carden, the British minister to Mexico.

It is understood that the basis of the inquiry was a confidential report to the state department. It is known that what particularly displeased President Wilson and Secretary Bryan was the presentation by the British envoy of his credentials to Provisional President Huerta the very day after the latter had proclaimed himself dictator.

The American government felt that Huerta's nullification of the Mexican constitution, not only by his arrest of the deputies but by his assumption of legislative powers, had so altered affairs in the Mexican capital that the British minister might well have withheld his presentation of credentials.

Inquiry was directed to determine whether the British foreign office had instructed Sir Lionel to present his credentials notwithstanding Huerta's assumption of powers.

The explanation of the British foreign office was noted in press dispatches, that the presentation of credentials was merely a coincidence and not antagonistic to the American point of view, was not commented upon by officials.

Diplomatic circles interpreted the new development as strongly intimating the desire of the United States to have a free hand in dealing with the Mexican problem.

The fact that Great Britain had recognized Provisional President Huerta rendered it necessary, it is argued in London, that the British minister should present his letters without delay and so obtain official standing. Neither the president nor Mr. Bryan would discuss Former Ambassador Wilson's attack on Secretary Bryan.

## Drilled Stone Puzzles Stonemen

A stone that has puzzled all who have seen it was brought to the Republican office Wednesday by William Harper, who found it deeply buried in the gravel on the George Moore farm on the Upper Bellbrook pike. The stone, which weighs 12 pounds, is honeycombed with large drill holes and one hole passes completely through.

W. G. Harrington, of the Aetna Powder Co., Earl Dodds, of the Dodd granite company and William Clevell, a veteran stone worker of the Dells company, say they never saw any holes of this kind made by drills now in use. Furthermore, the stone, which is a fine limestone conglomerate, has all its edges rounded and smoothed by weathering. It is evidently a fragment of a larger piece for some of the edges are broken drill holes.

When Mr. Harper found the stone the mouths of the holes were downward and there was no gravel or dirt in them. The gravel below where the stone was has been removed since but no other similar pieces have been found. The curious find seems certainly to be the work of man, but the indications are that the workman must have lived centuries ago. The stone is now at Baby's hardware store.—Xenia Republican.

## Want Auto Owners To Go Slowly

The officers of the Ohio State Automobile Association have notified the Athens Automobile Club to request all automobile owners to delay ordering their 1914 license tags. An action is now pending in the courts brought against the state to enforce the enforcement of the new Ohio auto license law. The money derived from the license, which amounts to about half a million dollars, is thrown into the state general fund. The auto owners are fighting to have this money expended on improving state roads as the law originally provided instead of using it to pay the many salaries of the new commission officers and other Cox administration appointees.

The Ohio Automobile Association believes that it will win in the fight now being waged against the manner in which the license money will be spent next year and for that reason asks that all auto owners delay the securing of license tags as long as possible.—Athens Messenger.

## IMPORTATION OF BEEF SHOW GREAT INCREASE

Fair Idea of Cattle Shortage in the United States May be Gleaned From Study of Accompanying Figures Which Show Big Increase in Beef Imports and Decrease in Cattle Exports.

Washington, D. C., Oct. 21.—The recent transfer of the United States from the small list of beef-exporting countries to the large list of beef-importing countries is sharply illustrated by the August figures of imports and exports of beef and beef cattle and a comparison thereof with the August figures of earlier years just made by the Bureau of Foreign and Domestic Commerce of the Department of Commerce. This shows that the exports of beef and beef cattle have fallen from 44 million dollars' value in the 8 months ended with August, 1904, to practically 1 million in the corresponding months of 1913, and that the imports of cattle meantime increased from 9,357 in the 8 months of 1904 to 340,105 in the same period of 1913, and their value from \$181,145 in 1904 to \$5,021,842 in 1913. As to beef, the importations in 1904 were insufficient to justify their statement month by month, and the total value of beef imported for consumption in the full fiscal year 1904 was but \$14,922, while the single month of July, 1913, showed a total importation of 642,394 pounds valued at \$56,993; August, a total of 1,151,626 pounds, valued at \$89,204; and September about an equal amount.

Even the value of the comparatively small number of cattle exported is now less per head than in earlier years, despite the general advance in prices meantime. The average export price of the 18,069 head of cattle in the 8 months ended with August, 1913, was \$34, against an average of \$68 for the 218,865 head of cattle exported in the corresponding months of 1904. On the import side there is a decrease of about 20 per cent in the valuation per head, the 340,105 cattle imported in the 8 months ended with August, 1913, being valued at \$15 per head, compared with \$19 per head for the 9,357 cattle imported in the corresponding months of 1904. The character of the cattle imported differs, of course, radically from that of those exported, being mostly, on the export side, grain fed animals ready for slaughtering, and on the import side, grass-fed cattle in many cases but 1 or 2 years of age. Practically all of the cattle imported, other than those for breeding purposes, are brought from Mexico, that country having supplied, in the fiscal year 1913, 391,477 of the 420,261 head imported for other than breeding

purposes. Of the 1,388 imported for breeding purposes, free of duty, 945 were from England.

Imports of beef show remarkable gains within the very recent period. In the fiscal year 1904 the quantity of beef imported for consumption was 169,509 pounds valued at \$1,922, against 923,378 pounds valued at \$61,110 in the fiscal year 1910, and 3,957,700 pounds valued at \$303,934 in 1913; while in the single months of July and August the imports aggregated 642,394 pounds and 1,151,626 pounds, respectively, and partial returns indicate that the September figures will also approximate one million pounds.

## RELIGIOUS SERVICES IN CHILDREN'S HOME

A movement has been organized by Rev. Gage with the cooperation of the Y. P. C. E. Society of the Presbyterian church, to hold religious services every Monday night at the Children's Home for the religious instruction of the children.

Supt. and Mrs. J. A. Tway have well established a Children's Home choir and have given all the help possible to moulding the children in the right direction, but outside of their individual efforts there has been no religious training in regular services.

Rev. Gage has pledged himself to secure a speaker for each Monday night and to furnish transportation to and from the Home and the Children's Home choir will furnish the music.

The idea is an excellent one, giving the children the opportunity of attending a weekly religious service.

SIXTEEN members of the Y. P. C. E. society of the Presbyterian church drove to the county infirmary Sunday afternoon to add music to the regular services.

Miss Dorothy Fullerton was chairman of the music committee, Miss Mazie Kessler violinist and Miss Jane Paul, pianist.

The county provides a certain sum each year for services at the infirmary and this money pays for a minister every second Sunday. The Bloomingburg W. C. T. U. secures a minister for one of the off Sundays and the Y. P. C. E. society has made known its intention to provide for the fourth Sunday. Rev. Forrest, of the M. P. church conducted the Sunday afternoon services.

## Does Your Hair Spoil Your Face?

If your glass reflects good looks—nice features that would make you considered pretty if only your hair were more becoming—don't you mourn about it. Instead of mourning or envying others whose hair is prettier than yours, use Harmony Hair Beautifier, and let others envy you. It is a delightful liquid hair dressing to beautify the hair—make it glossy, softer, easier to put up in graceful, wavy folds that will "stay put." It polishes the hair until it shines, and overcomes the unpleasant, oily odor, with a delightful fresh rose fragrance. Harmony Hair Beautifier is very easy to apply—simply sprinkle a little on your hair each time before brushing it. Contains no oil; will not change the color of hair, nor darken gray hair.

To keep hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. ## Mexico in History and Fiction

For many months Mexico has held the stage center of the world's news; has shocked governments and peoples by its methods and has aroused grave apprehension as to its future actions.

To understand this modern Mexico one should have some acquaintance with ancient Mexico and the dusky races which lived and loved in that country when Columbus crossed the seas.

No work will give a more interesting and reliable account of the ancient civilization of that country than "The Conquest of Mexico" by William H. Prescott.

Wonderful is Prescott's description of the coming of Cortez, summing up its importance in these words: "Among the remarkable achievements of the Spaniard of the sixteenth century, there is no one more striking to the imagination than the conquest of Mexico. The subversion of a great empire by a handful of adventures, taken with all its strong, picturesque accompaniment, has an air of romance rather than of sober reality."

The Mexico of today cannot be fairly judged without this knowledge of it during the early part of the sixteenth century, for from that country a civilization which might have instructed Europe was crushed out by Spain—Spain, whose evil destiny it has been to ruin two civilizations, Oriental and Occidental, and thereby to ruin herself.

A work of historical fiction of this period of absorbing interest is Lew Wallace's "Fair God," a romance of the Aztecs and the coming of Cortez in 1519.

After reading this remarkable history and equally remarkable novel, the reader can glimpse beyond the centuries the pageantry and picturesqueness, the adventure and the recklessness of that early Mexico.

Something of our own relations with their turbulent country is learned from "Mexico and the United States," by Matias Romeo. "The Life of Sam Houston," with his thrilling defeat of the Mexicans at San Jacinto in 1836 makes thrilling reading. Andrew Jackson said of Houston: "Thank God, there is one man at least in Texas, whom the Almighty had the making of and not the tailor."

Passing again into the realm of fiction, read Amelia Barr's "Remember the Alamo" and "The Lone Star," by Eugene P. Lyle, Jr. "The Missourian," also a novel by Lyle, is true enough to the period of Napoleon III, and the tragedy of Maximilian and poor mad Carlotta, to be of value. A dashing young Confederate officer and a fascinating girl of Napoleon's court try to aid Maximilian. The story echoes to the thunder of rushing cavalry and rings with the clink of spurs.

James Creelman comes nearer to our own time in "Diaz, Master of Mexico." The book is invaded by a great personality and is vividly written.

F. Hopkinson Smith, who, whether artist or author, always illuminates his subject, gives fine pen pictures of Mexico in "The White Umbrella in Mexico." There is "Unknown Mexico" by K. S. Lumholtz, "The Awakening of a Nation," by C. K. Loomis, "Picturesque Mexico," by Mrs. M. R. Wright and within the last year "Coming Mexico," by Joseph King Goodrich, touching upon industrial conditions, foreign relations and the country's attractions for tourists.

"Mexico of Today," by George B. Winton, fresh from the press, teems with information as to the country's history, politics, religions and social conditions, with emphasis on the missionary interests.

The reading of a few of these books will open your eyes to a bigger and a broader understanding of the Mexican situation.

## Only Strongest Measures Can Put Check on Occupational Diseases

By Dr. JOHN B. ANDREWS, Secretary of the American Association For Labor Legislation

FROM sickness alone our mere money loss each year is THREE-QUARTERS OF A BILLION DOLLARS. Conservative American authorities declare that at least one-fourth of this annual loss, approximately two hundred million dollars, CAN BE PREVENTED.

Recently there has been a remarkable development of interest in occupational diseases, of which "phossy jaw," lead colic, miners' asthma, hatters' shakes, potters' rot, boiler-makers' deafness and brass workers' chills are merely suggestive.

The medical director for the Pennsylvania East river tunnels in 1909 reported 3,692 cases of the "bends" or compressed air illness. There are scores of industrial poisons, one of which alone, lead, is in daily use in more than one hundred and fifty trades.

These spectacular effects of occupational disease are trivial compared with the gradual lowering of vitality caused by the daily breathing of IMPURE AIR AND BY CONTINUAL OVERSTRAIN.

THE PREVENTION OF OCCUPATIONAL DISEASE IS TOO GREAT AN UNDERTAKING TO BE LEFT ENTIRELY TO INDIVIDUAL ACTION. NOT ONLY ON ACCOUNT OF THE MAGNITUDE OF THE PROBLEM, BUT ALSO BECAUSE OF ITS NATURE, THE PREVENTION OF OCCUPATIONAL DISEASES IS PROPERLY A FUNCTION OF THE GOVERNMENT.

## Poetry For Today

### OUR LIVES.

Our lives are songs, God writes the Words,  
And we set them to music at pleasure;  
And the song grows glad, or sweet, or sad,  
As we choose to fashion the measure.

We must write the music, whatever the song,  
Whatever its rhyme, or meter;  
And if it is sad, we can make it glad  
Or if sweet, we can make it sweeter.

One has a song that is free and strong,  
But the music he writes is minor;  
And the sad, sad strain is replete with pain,  
And the singer becomes a repiner.

And the song of another has through the words  
An under current of sadness;  
But he sets to it music of ringing chords,  
And makes it a pean of gladness.

So whether our songs are sad or not,  
We can give the world more pleasure,  
And better ourselves, by setting the words  
To a glad, triumphant measure.  
—Ella Wheeler Wilcox.

## Look Young! Feel Full o' Ginger! SAMUEL'S "3-P"

Banish Indigestion and Build Up the Nerves

Thousands Are Doing It

Those who constantly suffer from indigestion, sour, out of order stomach have little energy and less vitality. They LOOK sixty at thirty—and they FEEL sixty.

The nerves get little nourishment from the food they eat, because it does not digest, but just rots in the stomach, causing bloating from poisonous gases, sallow, bilious complexion, pimples, headaches, and other well-known distressing symptoms. They feel just "worn-out" half or all the time.

Get a package of Samuel's "Three-P" capsules. Take them regularly for a few weeks, and notice the difference in the way you feel and look; that feeling of buoyancy which makes life worth living. That's why millions of these little capsules are sold.

It's not a secret patent medicine, but a prescription after the formula of a celebrated French physician, with all its ingredients plainly printed on the package—ingredients that are used and endorsed by leading physicians all over the world as the best to quickly put the stomach "back on the job"; also to infuse new strength, new energy, new vitality into a run-down system.

Good druggists everywhere sell Samuel's "Three-P" capsules, two sizes, 25c and 50c. Or order direct from The Samuel Chemical Company, Cincinnati, Ohio. Sold by

## INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

It is now estimated that claims of outside investors against the Mexican government, growing out of disturbances in the country since the overthrow of President Diaz, will foot up to \$250,000,000. This fact is being impressed upon the Mexican people with the hope that it might tend to lessen disturbances.

The Chicago Americans are to wear red, white and blue uniforms on their world's tour. There will be a small American flag on the sleeve and an American shield on the neck bands.

The results of the army examinations lately were interesting, showing the democratic spirit in that body. An impassable gulf is supposed to exist between private and officers in the world's standing armies. But in the United States the private may step directly across the gulf to a lieutenancy. Eleven young Americans became lieutenants in this way last month and the discipline and efficiency of the army is believed to be increased in this way.

Charles W. Armour says that if consumers discontinue eating veal until the supply of cattle is brought back to normal, bottom will soon thereafter drop out of meat prices.

So far \$320,000,000 of crop moving money has been placed in banks of the South and West by the United States Treasury. Of this sum \$25,000,000 was placed in September.

The work of reforesting about 5000 acres of denuded mountain slopes in Oregon and Washington is to be undertaken by the United States forest service. Both a direct seeding method, in which the tree seed is planted and the plant nursery grown trees will be employed and something over 3,000 pounds of seeds and 800,000 plants will be used. The principal kind of tree planted will be the common Douglas fir. Others are Yellow Pine, Sugar Pine, Noble Fir, White Pine and Norway Spruce. The trees are started at the government nursery in the Wind River Valley, Oregon.

Among the reporters at the recent golf tournament was the editor—and staff—of a flourishing golf periodical "The Young American Golfer." This is Willie Griffin, of Wheaton, Ill., the 31-year-old proprietor of a magazine with 5,000 subscribers, including President Wilson and former presidents Taft and Roosevelt. Besides attending to the printing and circulation, young Griffin has increased his advertising rate from \$1 a page to \$15 in these years. The young editor stayed at a big New York hotel and after the national tournament, visited other golf events in the East.

### IS YOUR SKIN ON FIRE?

Here Is a Reliable Healing Application for Eczema.

Try This Remedy at Our Risk.  
"If I could only get relief from this terrible itching, I would give anything," said an eczema sufferer the other day.

It was very easy for us to advise in such matters now, for our new remedy (Saxo Salve) for skin diseases of all sorts, stops the itching right away.

But better than that it makes the skin healthy again. It is made so as to penetrate right into the skin and saturate every portion with its healing, germ-destroying power.

Even in a few days you can see that Saxo Salve is soon going to clear away the eruption.

No other skin remedy can do so much for you as Saxo Salve. It is guaranteed. If it does not satisfy you when used for any skin disorder we give back your money. Blackmer & Tanquary, Druggists, Washington C. H., Ohio.

P. S. If you have eczema try Vinol to build up the blood. We guarantee it.

## DEMS. ELECT JUDGE

Peoria, Ill., Oct. 21.—Democrats elected Colonel Charles C. Craig of Galesburg, a member of Governor Dunne's staff, to the state supreme bench from the Fifth district. Judge Leslie Puterbaugh, Republican, who was opposed by women suffragists, headed by Mrs. Medill McCormick of Chicago, ran second to Craig. Arthur H. Shay, Progressive, got less than 5,000 votes in the district in which Roosevelt a year ago polled 26,206.

## A GLIMPSE BACK THROUGH YEARS

(John E. M. Kerr.)

March 7, 1872.

Col Yeoman and John Salmon are feeding 2,000 head of sheep on Mr. Salmon's farm in Paint township. D. G. Morris and Wm. Nelson are feeding a flock of 1,500. A great many sheep are being brought into the county and the wool crop will probably be much larger than usual.

On Thursday a number of citizens of our town, without regard to political opinions, met in Judge Willard's office for the purpose of action in regard to a corporation ticket for the spring election. The meeting was organized by appointing James Fursell, Esq. Chairman and D. Hamilton Sec'y. Remarks were made by Judge Willard and Col. Yeoman, Allen Hegler, C. H. Brownell, Wm. Millikan, Esq., and others, when the following ticket was nominated: Mayor, H. L. Hadley; Recorder, W. C. Gould; Marshal, H. P. Cherry; Treasurer, S. W. Stuckey; Council, T. M. Gray, Esq., E. C. Hamilton, A. McCandless; Cemetery Trustees, S. N. Yeoman. On motion, those present pledged themselves to support the ticket nominated.

## Aviator Maker Strong Prediction

A. V. Roe, one of the best known aviators in England, makes the startling prophecy in the London Mirror that the hydroplane of the future will carry 1,000 passengers and revolutionize ocean travel. He says the speed obtainable will be enormous, exceeding 150 miles an hour, and as the hydroplane will soon be a safe as any human invention can be, it will do away with seasickness. There is little doubt that ocean travelers would choose it in preference to a steamship. If Roe's startling prophecy is realized, passengers from New York will be in London twenty-four hours after their start.

## FATHER-IN-LAW OF HARDING IS DEAD

Marion, O., Oct. 21.—Amos H. Kling, father-in-law of Warren G. Harding, former lieutenant governor of Ohio, is dead after an illness extending over several months. He was Marion county's richest man and held large financial interests throughout the state. Mr. Kling was born June 15, 1833, in Lancaster county, Pa., but early came to Marion, where he became a banker and president of the Marion National bank. He also was director in several manufacturing concerns. Mrs. Harding has been seriously ill for several weeks and will be unable to attend the funeral.

# LOCAL FACTORIES WILL NOT MOVE TO RICHMOND

Negotiations Still Pending, However, For Branch Factory in Hoosier State, But Deal May Not be Closed For Weeks, If Closed at all—Increased Factory Capacity Here is Possible.

No Washington factories will be moved to Richmond, Indiana, as contemplated some time ago, when prominent members of the Richmond Board of Trade made visits to this city with a view to closing negotiations with local factory owners for establishing the factories in the Hoosier state, and escape what appeared at that time to be a much more stringent labor law than the final interpretation of the law.

Notwithstanding the fact that it has been decided by local men that the factories here will not be moved, but will continue in full operation here, negotiations are still pending between local men and the Board of Trade of Richmond, looking toward the eventual opening of a branch factory in that city.

The Richmond men, who were apparently real hustlers, have been acting very slowly of late, it is claimed, and it may be some time before negotiations are brought to an end by establishing a factory in Richmond or breaking off negotiations entirely.

It will be pleasing news to local citizens in general and particularly to those employed in the factories to know that the factories will continue to "do business at the old stand" with possibilities of increasing the capacity of the plants.

## INDIANA TAKES LOCAL MAN'S BOOK

At a recent meeting of the Board of Trustees of the Indiana State Reading Circle, four books were selected out of 200 submitted, and one of the four was Mr. Hugh C. Weir's book entitled, "The Young Skipper of the Great Lakes", which he wrote while in this city last year.

In selecting the book for the entire reading circle, the Board of Trustees placed an order for 3,000 copies of the work.

This is the second book written by Mr. Weir that the Indiana State

Reading Circle has picked out from among a large number. The first book was "With the Flag in Panama."

## O. E. GWINN SUED FOR \$37,500

O. E. Gwinn, formerly of this city is defendant in a suit filed in Columbus in which judgment in the sum of \$37,500 is asked by the plaintiff.

Concerning the suit the State Journal of Tuesday says:

"Alleging violation of contract, Charles G. Campbell yesterday in common pleas court filed suit against O. E. Gwinn, asking judgment of \$37,500 together with interest. Mr. Campbell alleges that on August 16, 1913, the two entered into an oral agreement by which he was to turn over to Gwinn certain properties owned by him in Kansas City and a note for \$2500.

"In return Mr. Gwinn was to give him, he says, 4,000 shares of capital stock in the American Carrara Marble Company, worth about \$40,000. Mr. Campbell declares that he fulfilled his part of the contract, but that Mr. Gwinn has failed to "come across."

Thomas & Hays are Mr. Campbell's attorneys.

## YOUNG BRIDE DRINKS ACID

Mrs. Chesley Kramer, nee Elliott, formerly of Hillsboro, but who has been living with her husband, Clarence Kramer, in Springfield for a short time, committed suicide Monday evening by the carbolic acid route.

She was married seven months ago and lack of domestic tranquility is said to have prompted the awful deed.

The following letter was found in the room where she ended her life:

"To My Dear Lost Love:—Chesley I am leaving for the best. I don't think we would ever get along is the reason I am doing this. We may both some day regret what we have done. If you want to stay here and rent a room, I will help you but I would advise you to go home. You know more people and you can have a better time. I will come up tomorrow and get the rest of these things out, so goodbye."

"What can I do but die, after reading that? Chesley." was scrawled upon the back of the note.

## ANOTHER ONE FROM WILMINGTON

In conversation on the B. & O. last week with a party of friends, one of the prominent legal lights of the town, in which the Court House of Clinton county is located, speaking of Washington Court House, said: "When a party of our people from Wilmington attended the Home Coming there, the first day we saw all the Reception committee and almost everybody else, wearing the buttons on which was printed, 'We live in Washington, ask me'. The second day not a button could be seen, all on account of we Wilmington visitors having said to them, 'Why'?"

Just to think of that coming from the town of Wilmington that professed to have a sisterly affection for our own beautiful city of Washington, the "Little Bristle of Ohio." Contributed.

## Dangerous Accident At Handle Factory

What might easily have been a very serious accident occurred at the Washington Handle Factory Tuesday morning when a cast wheel on one of the shapers flew to fragments, some of the pieces crashing through the roof and others flying about in the factory, but fortunately no one was injured and the damage will not exceed \$25.

It is said that the governor on the engine became disarranged, allowing the engine to race, speeding up the shaper to such a point that the 24-inch cutting wheel flew to pieces.

Fortunately no one was in the path of the flying pieces of iron, or the accident would have had a much different ending.

## Spurious Coins In Springfield

Counterfeit dollars have again made their appearance in this city and the local police department is on the hunt for the persons who are scattering the spurious coin. Several dollars were passed about the city Saturday, and in the rush of business they were not detected until too late to capture the offender.

Traffic Officer Young secured one of the coins that was passed on a street car conductor. It was said the man who gave the conductor the money got off near the Pennsylvania railroad tracks. The coins are crude and easy to detect, one part where the metal was poured into the mold being unfiled.—Springfield Sun.

## WILL CONSTRUCT HANDSOME HOMES

Architect J. Howard Hicks of this city has completed plans for handsome new residences to be erected by Lincoln Kirkpatrick, of New Holland, and Ed Glaze of Marion township.

The Kirkpatrick home is to be an 8-room bungalow, with bath, sleeping porch and will be brick veneered with tiled roof. It will cost approximately \$5,000. The foundation for the new residence has been laid.

Mr. Glaze will erect an 8-room residence, stucco and frame, and now has the basement completed. Both residences will be finished next spring.

## Citizens Still Angry Over Nefarious Work

Some of the Sunnyside residents are at white heat over the dog poisoner's work and threaten the fellow with the punishment he so richly deserves if his identity is established, and there is a movement on foot, it is claimed, to ferret out the guilty party and have him punished to the full extent of the law.

Not only has the rascal caused the death of a number of fine dogs, but has nearly ended the lives of others, and some of the citizens are fearful lest their small children pick up some of the poison scattered about for the dogs of the neighborhood.

Indignation has reached a point where the fellow may meet with physical violence among the neighbors he has wronged, if his identity becomes known.

"The fellow that has been spreading the poison is a much meaner, lower down, contemptible cur than the dogs he has poisoned," is the way one man expressed himself in speaking of the outrage.

Pankhurst, Crying Happily, Talks  
Of Her Liberation.

## ROASTS M'KENNA AND ASQUITH

Noted English Militant the Guest of  
Honor at a Banquet Tendered Her  
by the Aldine Association, Before  
Which She Talks of Prison Experiences—Suffragist Leader Soon to  
Speak in Ohio.

New York, Oct. 21.—Mrs. Emmeline Pankhurst, the English militant suffragist whom Washington officials permitted to land, is the guest of Mrs. Perry Belmont.

"One, no, two men in England," she cried happily in speaking of her liberation from Ellis Island, "will be disgusted to learn of this. I mean Mr. McKenna and Mr. Asquith. Mr. McKenna is a narrow, indelible, pig-headed, ignorant, obstinate person—a negation in all liberal principles." Her liberation, she said, was "a good slap at the Liberal government" back home, and she repeated her former assertions that doubtless British officials had interested themselves enough in her visit to America to further any efforts to have her deported.

A combined assemblage will be held at Madison Square Garden tonight, made up of the speakers originally scheduled to address the Carnegie hall and Garden meetings Friday night. The meeting at Carnegie hall has been called off.

Mrs. Pankhurst said she would remain as Mrs. Belmont's guest until Friday, when she will leave with her secretary and advance agent, Miss Joan Wickham, to address a meeting at Cleveland Oct. 25. She will speak at Canton, O., Oct. 27; Dayton, Oct. 28, and Cincinnati, Oct. 29.

Mrs. Pankhurst, at a dinner given in her honor at the Aldine association's rooms in the Fifth avenue building, made a speech that was received with enthusiasm and cheers, with hisses thrown in when the name of Asquith or Home Secretary McKenna were mentioned. Cries of "shame, shame," were heard when Mrs. Pankhurst told of the prison experiences of the militants.

There was a hushed, intense

out when Mrs. Pankhurst told a story of a girl accused of murder, a judge who left the trial of the girl and was not heard of again until his body was found in a low resort.

## MADE BY WILSON HIMSELF

Was the Decision in Favor of Admitting the English Suffragist.

Washington, Oct. 21.—Commissioner of Immigration Caminetti made public his reasons for having reversed the Ellis Island board's decision and admitting Emmeline Pankhurst, the militant suffragist, to this country.

Although Commissioner Caminetti promulgated the order reversing the findings of the Ellis Island officials, the decision in favor of Mrs. Pankhurst was in reality made by the president himself.

Under the decision admitting Mrs. Pankhurst on her own recognition she may be deported at any time if she should cause trouble. There was doubt in the minds of the president, Secretary Wilson and Commissioner Caminetti as to whether the misdeeds for which Mrs. Pankhurst had been convicted in England involved moral turpitude or were really political in character. It was this doubt which influenced them to admit her.

## NEW STARS WILL BE BROUGHT WITHIN VISION

Los Angeles, Cal., Oct. 21.—The concrete pier which will support the longest telescope in the world was completed on the crest of Mount Wilson. The telescope, which will have an 100-inch lens, will improve the Carnegie solar observatory, which at present is supplied with a 60-inch instrument. By means of the new glass, it is predicted, photographs of stars will be made which heretofore have been impossible.

## BOSSES TO SUFFER MORE LOSS OF POWER

Columbus, O., Oct. 21.—Basing his opinion on a statute which requires that contracts for public improvements costing over \$500 must be awarded by competitive bidding, Attorney General Hogan holds that it is illegal for the director of public service to allow individual departments to carry to completion improvement work by hiring day laborers. The opinion rendered by the attorney general, it is declared, will have a great political bearing in many cities, in that it will have effect to halt to a vast extent that end of machine politics affecting the wholesale employment of laborers.

## SLIPS ON ICE IS BADLY HURT

The first accident of the season as a result of the cold weather occurred at The M. Hamm Fertilizer company's plant about two o'clock Tuesday morning when night watchman, Arthur Harley slipped on the ice and fell heavily to the ground, injuring his right hip so that he was almost helpless.

As soon as he could move he dragged himself to the telephone and succeeded in securing assistance. He was taken to his home and medical assistance was necessary to ease his sufferings. It will be several days before he will be able to go about his regular duties.

## ATHLETICS IN SCHOOL LIFE

Side lights upon Athletics and the necessity of physical development in connection with student life is effectively brought out in following excerpts from sermon of Rev. W. Boynton Gage, upon occasion of the High School Recognition Day services held at the Presbyterian church Sunday evening.

"The splendid man must be the equipment of that magnificent specimen of architecture of which we are so proud, the High School building, there is a gymnasium; upon the faculty there is an athletic coach; and superadded to the playground is the athletic field.

"But this matter of High School athletics is very much in debate now days by reason of the physical danger supposed to be involved. But after an experience of eight years in a college pastorate where there was an enrollment of about 2000, and a full quota of teams, I bear this testimony, that I never yet was called upon to pay a visit to one sick or injured by reason of his participation in the games. I saw them sometimes limped and limping, but cheerful, smiling and able to be about. But each year there were hundreds who succumbed to attacks of disease by reason of the inability of the body to resist it, some of them finally dying.

"In fact the grim spectre of physical danger lurks not so much in High School games as in High School studies. The course is continually being geared higher. Some of us older ones would hardly be able to stand the pace of this generation. And we welcome the institution of an industrial department, affording thereby to lads not intellectually qualified, the opportunities of a High School course.

As one wearing glasses, I am interested in knowing how many eyes have the vision dimmed; and how many finally become sightless; I am interested in knowing how many headaches are produced; I am interested in knowing how many girls come to commencement with shattered nervous systems; and how many boys and girls are physically weakened by a course of study in which the body does not receive due development and care.

"I am sure that these statistics compiled, would surprise us. Yet we shrug our shoulders in a kind of horror at the record of a few paltry injuries received in the development of the body, and which the recipients most cheerfully bear, forgetting to even shed a tear for those who in the protection of their bodies from injury, come ultimately to the heritage of a weakness that makes an easy prey to disease."

## More Bloodhounds At Cedarville

Queen, the female of the pair of bloodhounds recently purchased by the Cedarville Protective Association, is the mother of five fine puppies. All are strong, healthy little animals and are being carefully cared for by Marshal Kennon who has charge of the dogs. The pure bred puppies are valuable animals, and can be disposed of by the Association at fancy figures. They will be kept by the Association until large enough to be thoroughly trained before being sold.

The work of the bloodhounds in running down the men who cut the bee tree on Kale Johnson's farm, indicate the dogs can do good work when circumstances are favorable.

## HIGH CORN STUBS CAUSE LAW SUIT

Corn stubs 15 inches to more than three feet in height forms part of the grounds given by Leonard Butts for refusing to pay W. H. Johnson for cutting his corn.

The case was appealed from Justice J. B. Koontz's court, where the court had awarded the plaintiff, W. H. Johnson, \$39.90 as the amount due him, although the plaintiff had sued for \$81.90. The defendant claimed that he paid Johnson \$42 of the amount, and that by reason of damages sustained because the corn stubs had been cut so high, and because the job had not been done in a workmanlike manner as agreed upon before the work commenced.

## SHIPPING CAUGHT IN STIFF STORM

## VIRGINIA COAST WHIPPED BY A GALE

Three Vessels In Collision In  
Hampton Roads.

Norfolk, Va., Oct. 21.—Shipping along the Virginia coast and in Hampton Roads suffered severely from a 50-mile southwest gale. Scores of vessels sought shelter in Hampton Roads.

The wind was so severe in the roads that three ships were in collision. The Norwegian steamer Tordeskjold collided with a barge at Lambert's Point. The barge had a hole stove in her starboard bow and the steamer had several plates dented.

The British steamers Dueragin and Storton came together when trying to dock at Sewall's Point. The captains lost control of the vessels in the gale. Both were damaged so badly that they will have to go into drydock.

Government barges No. 8 and No. 208, loaded with ammunition, were torn away from the big naval tug Massasoit during the height of the storm and ran wildly for nearly an hour. No. 8 was driven ashore and sank before a tug could reach her. No. 208 was picked up by another tug. The battleships Vermont, Kansas and New Jersey, which were having target practice off the capes, came into Hampton Roads to get out of the storm.

**MORE BLACK RAIN FALLS IN FAYETTE**

Numerous rural residents have commented upon the fall of "black rain" sometime Saturday night, and one man states that evidences of the rain, in the way of a black deposit, may still be seen in the roads where pools of water collected.

This phenomenon was remarked in this and adjoining counties last year, and attracted considerable attention. While "black rain" is uncommon it is hardly a rare occurrence in this part of the country.

Various explanations have been offered as the cause of the dark colored rain, one of the principal reasons advanced being the presence of soot high in the air which is collected by the moisture and carried to earth.

It is claimed, however, that an analysis of the "black rain" does not show the presence of soot.

**HOW GAMBOA DIKE IN PANAMA CANAL WAS WIRED FOR EXPLOSION; DESTRUCTION OF DYNAMITE HOUSE**

This picture shows the Gamboa dike in the Panama canal ready for the dynamite explosion which destroyed the dam and let the water of Gatun lake into Culebra Cut. Notice how the top of the dike is wired for setting off the 1,227 charges of dynamite. President Wilson gave the signal for the explosion by pressing a button at Washington. An explosion of a dynamite storage house near the dike is also illustrated here. The destruction of the dike was successful, a big breach being torn open in the middle, and the water of Gatun lake flowed like the rapids of a river into the famous Culebra Cut, which had already been filled with water to within about six feet of the level of the lake.

**BLIZZARD SWEEPS FAYETTE COUNTY**

For a while Monday evening Fayette county was in the throes of a real "spell" of winter, and the cold wind hurled the sleet with great violence, causing humanity to shrink from it and seek shelter by stoves that were working almost full power.

It was the first real winter of the season, and Monday night a heavy freeze followed the Borean blast from the north.

According to the weather man the coldest of the present spasmodic change has passed, and the last half of the week will be fair.

**HARRY HILL SHOW HERE FOR WINTER**

The Harry Hill show, which has been making this city its winter headquarters, arrived over the Pennsylvania railroad Monday afternoon, and will again make this city headquarters for the winter.

The show gave its last performance of the season at the Lancaster fair last week.

It required two cars to carry the animals and show equipment.

**MACCABEES MEET**

The Knights of the Maccabees will hold their regular meeting tonight in their club rooms over the Cockerill store. Business of importance.

**SEND US YOUR TABLE LINEN**

Your table linen should look its best for the dinner. It will if you send it to us to be laundered. We wash your table cloth and napkins white and clean; give them a pearly white color, like new. We iron them with a smooth velvet-like finish that shows every thread in the pretty pattern, and gives them the same sheen and stiffness that they had when new.

Wrap up your linen and send it to us before Thanksgiving week.

**HOW GAMBOA DIKE IN PANAMA CANAL WAS WIRED FOR EXPLOSION; DESTRUCTION OF DYNAMITE HOUSE**

This picture shows the Gamboa dike in the Panama canal ready for the dynamite explosion which destroyed the dam and let the water of Gatun lake into Culebra Cut. Notice how the top of the dike is wired for setting off the 1,227 charges of dynamite. President Wilson gave the signal for the explosion by pressing a button at Washington. An explosion of a dynamite storage house near the dike is also illustrated here. The destruction of the dike was successful, a big breach being torn open in the middle, and the water of Gatun lake flowed like the rapids of a river into the famous Culebra Cut, which had already been filled with water to within about six feet of the level of the lake.

# GAME WARDEN SACKETT IS AFTER VIOLATORS

Comes Here From Active Campaign in Ross County Where He Has Made Many Arrests and Assisted in Organization of Fish and Game Protective Association—Report of Illegal Fishing on Rattlesnake.

Deputy State Game Warden J. S. Sackett, who operated here a couple of months ago, and has since spent much time in Ross county where he has assisted in the organization of a Fish and Game Protective association is in the county again, arriving Monday evening, and will probably remain within the county's borders for several days.

Reports of the small number of hunters' license issued here, and that illegal fishing was going on in some of the streams of the county, are said to have brought the officer here to make a thorough investigation.

Deputy Sackett has been in the fish and game commission's employ for a number of years, and has a great many convictions and fines to his credit. In Ross county he has been making many arrests of violators, and in establishing a fish and game association in Ross he now has a large number who will aid him in his work, as demonstrated a day or two ago when two members of the association were driving along the road and beheld a man hunting. Even as they looked the man fired and killed a rabbit. He was ordered to report to the court, which he did and drew \$25 and the costs.

Quite a number of Fayette countians have expressed a willingness to become members of a county fish and game association, and such an organization may be made here within a short time.

Before leaving this county Deputy

Sackett expects to run to earth some parties who are alleged to have used illegal methods in capturing a large number of fish in Rattlesnake creek a few nights ago.

## Eggs Worse Than The Work House

A penalty to suit the offense, even though the penalty is not expressly written into the statutes of Ohio, is the plan put into execution by Mayor Walters, who presides over the police court at Marion.

A. G. Brant was arrested for a theft of eggs and at first the mayor expected to send him to the workhouse, but later on he directed that the man be confined in the city prison and fed on the eggs he had stolen. Fried eggs, boiled eggs, hard and soft, omelets and eggs in every form have been fed to him until Brant declares that he is so sick of eggs he will never look a hen in the face again without having the stomachache.

"I'd rather have gone to the workhouse," declared Brant Sunday after his release from jail.

## Allen-Smith Case Drawing to Close

All of the evidence had been submitted in the \$20,000 damage case of Frank M. Allen against T. T. Smith Tuesday noon, and the arguments were commenced Tuesday afternoon. It is expected that the case will go on to the jury some time tomorrow. Good progress has been made in the case.

## Hartman Theater

On Friday and Saturday, October 31st, and November 1st, with a matinee Saturday, the Hartman theater will offer one of the strongest plays ever produced on the American stage—a play which has made a profound impression on all who have witnessed it. This production is "Damaged Goods", and it has been endorsed by the leading physicians, teachers, ministers and sociological workers in this country so it is probable that it will appeal to all theatergoers. A special presentation was given for the above mentioned prominent leaders in the various professions and the statements from them indicate how well the dramatist has done his work. One prominent Washington pastor says "The dramatic presentation of this terrific message, so much more powerful than any other kind of presentation could possibly be, will be of such inestimable value and so great an opportunity for a city that it becomes a solemn duty of all citizens who can to attend." Surely, the play needs no stronger endorsement than this.

## FRIENDLY TO HUERTA

Europeans Friendly to Huerta. Mexico City, Oct. 21.—As the government seems to be recovering from the demoralization which followed the fall of Torreon and the arrest of the deputies, the European diplomats are returning to their former attitude in favor of President Huerta. They now seem to be resentful of the American support of the forces which are openly at war with a government which they have recognized as a friendly one.

## UNTAMED IMMIGRANT

New York, Oct. 21.—Defying all the immigration inspectors and customs men, Miss Katherine Cook, 23, a Scotch girl with a temper as fiery as the famous hot drink of the Highlands, was detained on the steamer California. Miss Cook refused to tell the inspectors whom she was to visit in America. When customs inspectors tried to examine her baggage on the pier Miss Cook would not give up the keys to her trunks.

## ANSWERS GRAVES

Columbus, O., Oct. 21.—In an answer filed in supreme court, the Ohio Equity association, through Charles S. Gongwer, its secretary, again charges that Secretary of State Graves abused his discretionary power in throwing out the petitions for referendums on the Warnes and Kilpatrick taxation laws. The answer is a reply to the answer of Secretary of State Graves, denying that he was actuated by any but proper motives in rejecting the petitions.

## GORGAS WILL FIGHT DISEASE IN AFRICA

New York, Oct. 21.—Colonel William Crawford Gorgas, chief sanitary officer of the Panama canal zone, who begins a leave of absence to go to Johannesburg, South Africa, and make an effort to check the ravages of pneumonia among 200,000 negro miners there, arrived here from the canal zone. While in the isthmus Colonel Gorgas said he had had serious epidemics of pneumonia among the negroes in the first two years of the work and that the segregation of infected persons had been one of the means of suppressing the disease.

## OHIO HAPPENINGS

Killed Himself to Avoid Arrest. Zanesville, O., Oct. 21.—William B. Kirk, 30, a pottery worker of this city, committed suicide to avoid being arrested. Kirk had threatened to kill several people at his boarding house, following a quarrel. They telephoned the police and within five minutes Kirk was seen walking past the station. Chief John Arter detailed two men to arrest him, and when Patrolman Frank Huey took hold of his arm Kirk drew a revolver and shot himself through the head, dying instantly.

Girls' Dormitory Burns. Oxford, O., Oct. 21.—The senior house of Oxford College for Women was destroyed by fire. It was a two-story frame dwelling across the street from the main college building. The occupants lost everything they had in the building. No one was in the dormitory when the fire broke out, all having

been in the main building. An overheated furnace caused the fire. The loss is \$6,500.

## Two Hit by Automobiles.

Cleveland, O., Oct. 21.—Blinded by the driving rain, five persons walked in front of automobiles and two of them received fatal injuries. Miss Mary Costello, 45, was thrown against the curb and her skull was fractured. She died on the way to a hospital. William Kepz, 50, also was thrown against the curb and sustained scalp wounds and a broken leg and internal injuries.

## Wants Women to Help.

Chillicothe, O., Oct. 21.—The Ohio Federation of Women's Clubs, in session here, was asked to co-operate in a public health campaign. The request came in a letter from Secretary E. F. McCampbell of the Ohio state board of health. Dr. McCampbell urges the women's clubs throughout the state to join in the movement "to make Ohio the healthiest state in the Union."

## Killed Boarder; Paroled.

Dayton, O., Oct. 21.—Mrs. Sallie Dickerson, indicted for murder in the second degree for the killing of Elmer Hardy at Harris Station, east of Dayton, Sept. 6 last, pleaded guilty and was given a suspended sentence of from one to 20 years in the penitentiary. She killed Hardy, who was a boarder, in a quarrel.

## Senate to Drop Salem Case.

Washington, Oct. 21.—Investigation of the appointment of George H. Gee as postmaster at Salem, O., through an alleged political deal, was defeated in the senate only after Senator Bacon had thrown the body into executive session and Senator Burton's resolution for investigation had been beaten by lack of a quorum.
